

WINSTON & STRAWN LLP

For more than 160 years, Winston & Strawn LLP has served as a trusted adviser and advocate to companies in a broad array of industries. The firm has built a law practice with tremendous breadth and a global presence across three continents. Of all the accolades we receive, Winston is most proud to have the continued trust and confidence of its clients.

Winston is organised as a single law firm with 16 geographic locations. We do not function as a collection of independent offices—all of the firm’s resources are equally available to each attorney in the service of a client. Through this approach, we ensure consistent outcomes, and all our clients receive the same high level of service anywhere in the world, working through our network of offices in the Middle East, Europe, Asia, and North America.

Winston lawyers have decades of experience representing clients in the Middle East, one of the key markets for global businesses. The firm continues to expand its capabilities in the region—as the market has grown, so has our practice. Our Dubai office serves high-profile, multinational public and private sector clients on a global level. We provide seamless high-quality legal services in a diverse range of areas, including cross-border corporate and finance, project and transportation finance, project development, private equity and venture capital, litigation, international arbitration, contentious regulatory, and EU antitrust and competition.
