

Firm Overview

Who We Are

As a full-service global law firm, we provide insight at the point where law, business and government meet, giving our clients a voice, supporting their ambitions and achieving successful outcomes.

Our multidisciplinary team of more than 1,500 lawyers in 47 offices across 20 countries provides unrivalled access to expertise and invaluable connections on the ground. It is a seamless service that operates on any scale – locally or globally. It encompasses virtually every matter, jurisdiction and market.

And we place our clients at the center.

We combine sound legal counsel with a deep knowledge of our clients' businesses to resolve their legal challenges. We care about the quality of our services, the success of our clients and the relationships that are forged through those successes.

Breadth and Depth

Our client base spans every type of business, both private and public, worldwide. We advise a diverse mix of clients, from Fortune 100 and FTSE 100 corporations to emerging companies, and from individuals to local and national governments. In the private sector, we provide the full range of legal advice required to implement practical strategies and resolve disputes. In the public sector, we counsel governments on privatization of whole industries and on establishment of regulatory systems under which new private businesses can compete. We also serve the regional needs of the countries and cities we call home.

Whatever is needed, we are able to deliver the cross-practice, cross-border and industry-specific support that clients require for success in today's competitive markets.

We are dedicated to our clients' success, and their satisfaction shows it. We continue to advise successor organizations of clients that we represented at our formation some 120 years ago.
